O. M. MONNICH VIOLIN CASES

GEWA, being aware that there are some players requiring a Lightweight Carbon Fibre Violin Case, but are finding them often more expensive than they wish to pay, have therefore sourced a new more affordable case.

Introduced at the Frankfurt Music Messe in April 2011 to great acclaim, these new Chinese cases have been selected by GEWA to meet their high quality standards, but at a lower price than their own Idea Carbon Fibre cases. They are only available in Europe from GEWA.

It is available not only in the natural Carbon Black finish, but in a selection of colours, but unusually the carbon fibre weave is visible even in the coloured case, so that you know that these are genuine Carbon Fibre Cases.

It is now available from JPB at the introductory launch price of **ONLY £580**
