

## HIDERSINE VIOLIN OUTFITS

AUGUST 2011

### The Piacenza Violin Outfit

This beautiful Instrument is the next violin up in the Hidersine range. It is targeted at students already progressing through the early Grades, but it is consistently so good that we have many teachers using it as their teaching instrument. The violin starts as a factory made instrument, but is completed and finished by hand, to ensure a level of quality unusual in a violin at this price. When we were asked to trial this violin, we not only found it to be superb, but we suggested the name by which it is now marketed!

It is made completely of naturally seasoned tonewoods, with ebony fittings. The 2 Piece back is superbly flamed, and the front table just looks superb. It also has a lovely sweet warm sound, with plenty of volume. A Wittner type tailpiece, with gold adjusters, complements a superbly varnished body, with a 2 piece back. Fitted with Thomastik Vision strings, and supplied in a quality rectangular Hidersine case, blanket, padded ruckstraps and Brazilwood bow this is an amazing package. They are carefully set up by us and at our prices, this has to be almost unbeatable value for money. It not only sounds good, but its looks are unbelievable. (Please note that the supplied chinrest sometimes varies from the Guarneri pattern shown, please ask if you require a specific model of chinrest, and we will happily change it).

Only available in  $\frac{3}{4}$  and  $\frac{4}{4}$  size

Normally Priced at by others at between £240 - £290:

However from JPB only **£205**, ready to tune and play.

When current stocks are depleted, the price will unfortunately rise to £230

## HIDERSINE VERACINI VIOLIN OUTFIT

Hidersine have done it again, and produced yet another fantastic violin outfit. This superb antiqued instrument is targeted at players progressing well, and looking to get beyond the student level instruments. Primarily hand made and finished using naturally seasoned tonewoods, this violin is really much better than you would expect for the price!

The varnishing and antiquing are applied by hand to produce a superb natural effect. It is beautifully presented in a quality rectangular case with padded ruckstraps, blanket & hygrometer, with a superior octagonal Brazilwood, ebony frog bow, with Parisienne eye.

The Instrument is strung with Thomastik Vision strings, and has ebony fittings. In line with the quality of the instrument, the ebony tailpiece only has an E adjuster. The Antiquing is very tasteful, with each instrument looking different to the next. The beautifully flamed back is either a 2 piece or single piece. It is only available as a full size violin outfit

We are marketing this outfit fully professionally setup at only **£495**, well below what other violin shops are charging, as we want to get it being played and enjoyed!

This fine instrument sits in the middle of the Hidersine range of violins, and all are stocked in depth.
