These superb violins have been selected by Hidersine, 'The House of Strings' as representing the cream of the Handmade Chinese Violins. They are all priced the well below RRP, as you have come to expect from JPB. They are each totally individual violins, in two different styles, Guanerius and Stradivari. We have gone to the unusual steps of including measurements for those purists who like to have that information. Rarely have we seen and heard such sweetness and clarity of tone from new instruments. It just goes to confirm that the Chinese really have the best Luthiers in the world, as proved by Chinese Luthiers winning the Cremonese Violin competitions! We make no apologies for being the largest stockist of New Chinese manufactured violins in the U.K. across all price ranges. These instruments have of course been fully set up and improved by our Luthiers. Our commitment to quality instruments at affordable prices makes us the No. 1 U.K. supplier. No longer do you need to travel to London, just come to sunny Weston-Super-Mare and be amazed.
